Dedications

We, the class of 2017, would like to dedicate this yearbook to

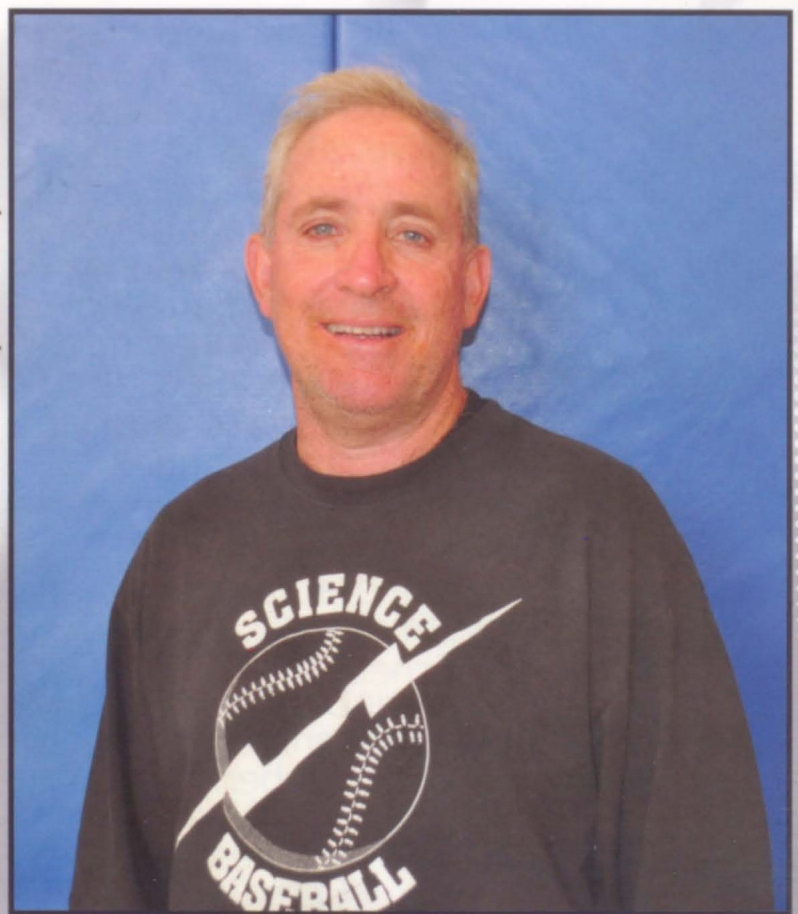

Mr. Mohren

Mr. Mohren is your typical white dude. You would never think he is capable of having such an impact on his students. Whether it's helping you get through your freshman year, wiping your tears, encouraging your obsession with Candy Crush, or even something little like telling you to pay attention in class. He is a person that will always stay with you. His long boring lectures always somehow have a meaning that you can relate to whether it's the next period or the next year. Thank you for your wisdom, your encouragement, your passion, your humor, your common sense, and for just being you.

Mr. Farley

The class of 2017 would like to dedicate this yearbook to Mr. Farley: the only reason why most seniors won't drown and are now aware of the dangers of driving on Ferry St. Over the past four years he has provided our entire class with pretzels, advice, and a long list of corny jokes. Mr. Farley is a great teacher and a wonderful person overall. He is always there when you need him and never fails to say hello when he sees you walking down the halls, or even when you're in someone else's class. Here is to the teacher with the best sense of humor, the greatest stories, and an amazing talent for giving nicknames. From the entire class of 2017, you will be missed!

Twenty years from now
You will be more disappointed
By the things you didn't do
Than by the ones you did do.
So throw off the bowlines.
Sail away from the safe harbor.
Catch the trade winds in your sails.
Explore.
Dream.
Discover.

-Mark Twain

Tierney, Kathleen
Principal

Congratulations to you, the class of 2017! You have reached a milestone in your academic career, and for that, you should be proud. The last four (and for some of you, six) years have served as a base upon which you will build your future. I am confident that the knowledge and skills you have acquired here at Science Park have prepared you for the rigors of a college program of study. Be firm in your commitment to academic excellence; let the pillars of community, honor, peace, and truth guide you into becoming well-rounded individuals capable of making this world a better place.

We can never be sure of what the future holds for us. But I can say this with certainty: Your time here at Science Park High School has provided you with all the necessary tools to shape a future filled with success.

Best of luck!

Harvey, Mary Leigh
Vice Principal

As I sat at my desk thinking about my final words to you, I was in a quandary as to what to write. After I saw some of you this morning, I decided a thank you would be in order. Thank you for making each day more pleasant by stopping in and sharing your best and most challenging times at Science Park. Thank you for inviting me to sporting events and sitting with me to cheer for our teams on the ice, in the pool, on the field, on the court, and at the bowling alley. Thank you for singing, playing instruments, and creating works of art to enhance my time with you at Science Park. I wish you all the best as you graduate from Science Pak High School and I await the stories of your future endeavors when you come to visit.

It is now your time to make a difference and to make our world a better place. As you begin this new chapter in your life, always remember the good times you had at Science Park High School and the bonds you made with students and staff. My sincere congratulations to the class of 2017!

Sawaged, George
Vice Principal

Milonas, Argyrios
Vice Principal

Congratulations to the class of 2017! As you go off to the next stage of your individual lives, be confident in the fact that you are leaving with an excellent foundation for your future endeavors. This includes not only your education, but also the values and expectations you have developed while you have been with us. Above all, set high expectations for yourselves because it is these expectations that will define what you accomplish. And, when things get tough, let your values guide you in overcoming adversity. I wish you the best in all that you pursue.

To the graduating class of 2017, congratulations on all that you have accomplished thus far and I wish you all the best for what has yet to come. Not to sound cliché, but I do enjoy quotes so here is one from Dr. Seuss, "you have brains in your head. You have feet in your shoes. You can steer yourself any direction you choose." Therefore, as you leave Science Park, make sure to always stop and take the time to consider your decisions and actions, for they can lead your life in so many interesting directions. Wishing you the best always.

Garripoli, Mary H
Vice Principal

Sesay-St. Paul, Mariama
Vice Principal

To the class of 2017, the time has come to lose the training wheels and ride off into the sunset! I hope your journey is an amazing one! Ride far and long. Don't forget to stop and smell the roses along the way. Enjoy the ride and let the sun kiss your face. Meet new people, try new foods and listen to new music. Trust people when they show you who they are, be it good or bad. Make decisions that you can be proud of and always think about the consequences before you act. Enjoy the next phase young Chargers! Good luck in all of your future endeavors!

Class of 2017. Your perseverance and spirit have gotten you this far. You have done all that is required of you, now go and begin your own journey. To this point a clear path has been presented to you, with clear guidelines and expectations, but your future is a path of your choosing. This path might feel frightening, overwhelming, confusing, and difficult, but it is your path, it will go where you guide it. Blaze a trail we can be proud of. We are happy you are leaving, but we are sad to see you go. Solvitur ambulando.

Mr. Swartz,

We want to thank you for taking on the burdensome, hectic, and often thankless job of being our class adviser. We know that we have been a pain - sometimes. Thank you for looking out for our best interests and guiding our class through high school. Thank you for your years of corny and cheesy jokes. You have truly been unbe-weave-able

We are the music makers,
And we are the dreamers of dreams,
Wandering by lone sea-breakers,
And sitting by desolate streams;—
World-losers and world-forsakers,
On whom the pale moon gleams:
Yet we are the movers and shakers
Of the world for ever, it seems.

-"Ode" by Arthur O'Shaughnessy

Thank You Class of 2017

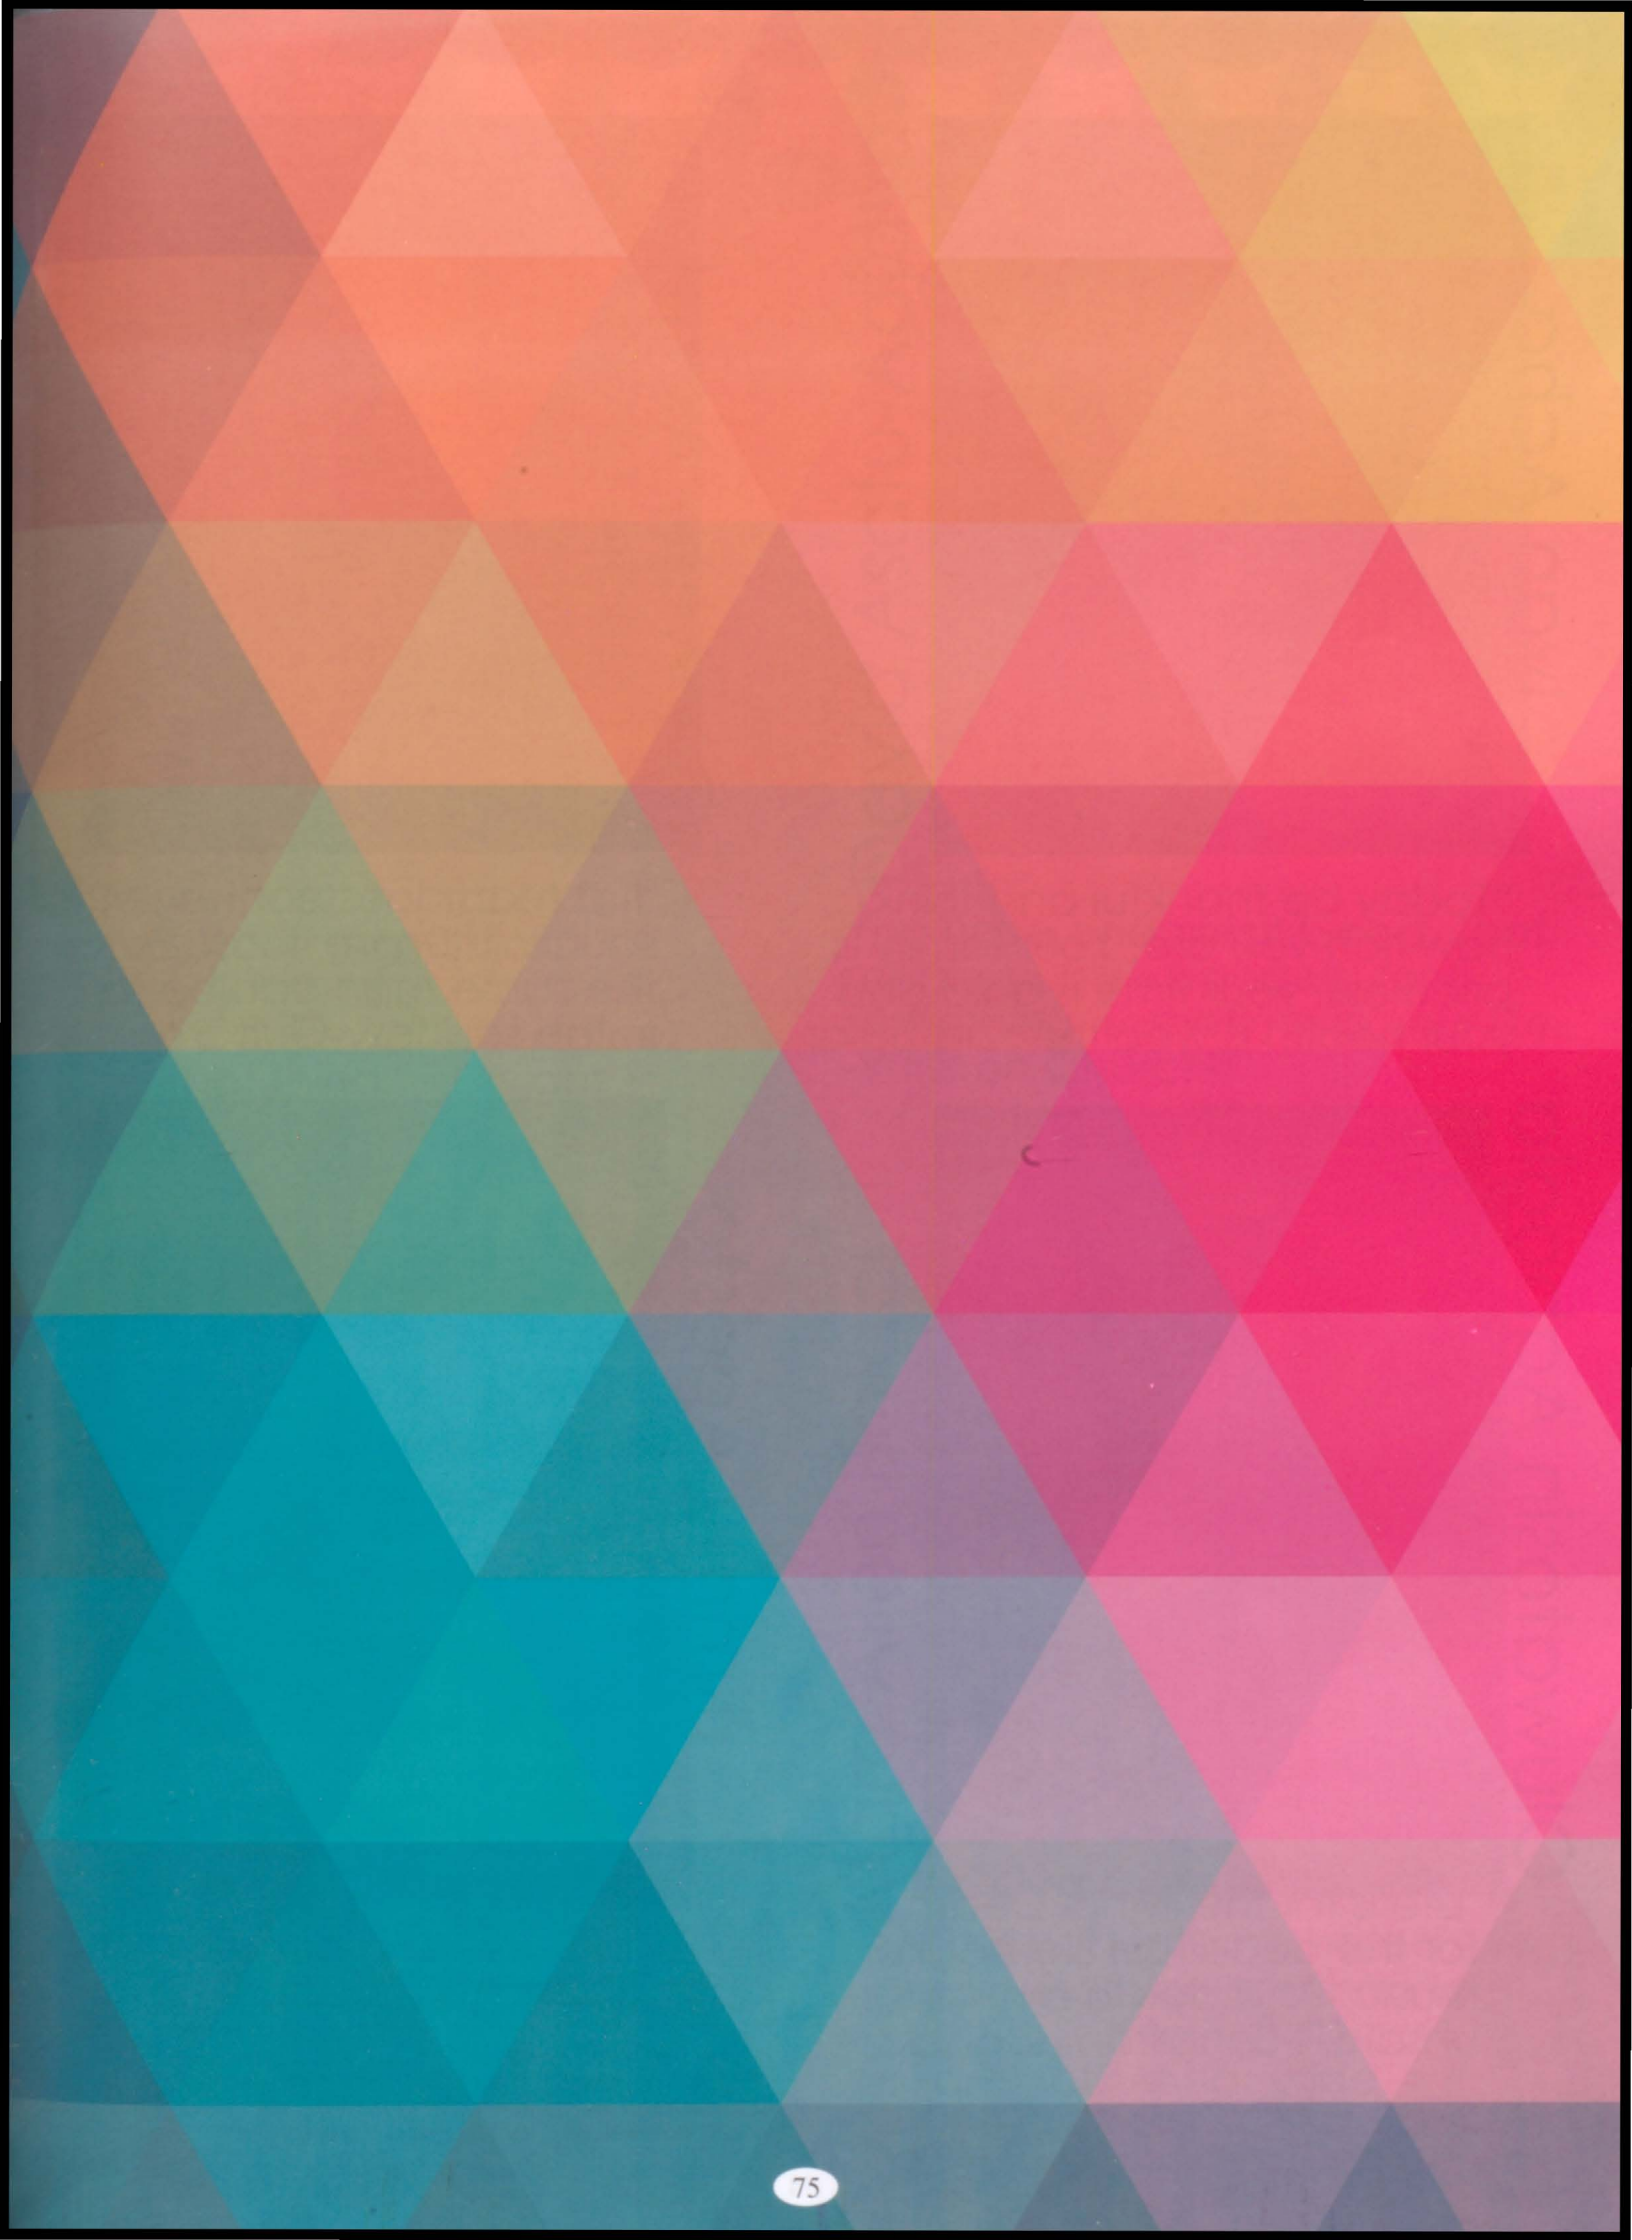

For most of you, it has been 4 years, and a few select have spent 6 years at the Amazing Science Park! Your class will go down in history for all the wonderful accomplishments in the fields of academics, athletics, and overall awesomeness!

Personally, I want to thank you for such wonderful memories, and being the highlight of my career. The Class of 2017 will always have a special place in SPHS history and in my heart!

In sports, you had State Champions in Track and Field, and County, Conference, and City Champions in Bowling, Girls Basketball, Baseball, Boys Soccer, Girls Soccer, Boys Volleyball, Girls Volleyball, and of course, Track and Field!

I've seen that same man fail, get back up, dust himself off, & fail again, until, he would eventually succeed, because he never gave up. Over the course of my life, I too, have failed miserably as well, but I've always found a way to bounce back. I, will Never give up, no matter how many times I fail, until I eventually succeed, because success is the only option, even if the road to it is difficult.
